

Oklahoma Parental Choice Tax Credit

NEW INFORMATION

The priority window (for applicants with a household income of \$150,000 or less) for the OK Parental Choice Tax Credit ends on February 5, 2024. After that date, more people should start receiving Approval Emails from Merit- help@merits.com.

After you receive your approval email, Merit should send you another email asking you to create an account and **accept your "merit" / tax credit**. (Check your spam/junk folder.) **You must do this step in order for the tax commission to issue a check on your behalf!**

The email to create an account will come from help@merits.com. If you have already received your approval email from Merit, you have likely been sent the email to Create your Merit Account.

The link to create your Merit Account expires 5 days after the email has been sent. If the link has expired, you should still be able to create a new account by selecting "Forgot Password" and creating an account that way.

If not, contact help@gomerits.com via email or the OK Parental Choice Tax Credit helpline by phone at 918-554-5440.

We will contact you directly once we have received your check from the Oklahoma Parental Choice Tax Credit Program. Please remember that all tuition payments are due as scheduled. Once we receive your check and it is endorsed by you, we will issue a refund for any applicable payments made.
